

Earth Week - Last Week - Was Full of Green Projects and Events

In 2009, **Specialty Print Communications (SPC)**, Chicago IL, replaced all of the lighting in their 105,000 square foot facility with new, lower emission, longer life bulbs and fixtures.

[Now the figures are in!](#) The energy and pollution reductions, per the **Environmental Protection Agency**, were 733,323kWh reduction on an annual basis, or 511 tonnes of CO2 reduction in greenhouse gas.

The conservation equivalents are the same as taking 92 cars off the road for one year, or 13,097 trees absorbing pollution for 10 years. Thumbs up to you all!
